“ Ruth Ann-

So sorry to hear about your mother. Wish I had known sooner. I would love to chat but don't want to post my number on this public site. If you still have my address, please send me a line here in Tallahassee. I sent a card to Smackover but it came back so now have no way to get in touch with you. You were so kind when Mama died & your mom was always so dear to Mama & me. We sold Mama's house or would just say send it there! Fredrica Boyd (Freddie)

“ Having grown up like part of their family I have good memories of Louise along with Charlie ,Fred , Ruth and Mike. My mother, Betty Valovich and her were wired telepathically and any trouble we got in was instantly relayed to the other. Like the time we got in to Charlie"s half aged carrot juice wine and needed nursing. She was fearless and as a small women she could drop Mr Big to his knees quickly and treated us like her own. Glad to have known her.

“ When I started my Public Health career at the Garland County Health Unit in July 1972, Louise was one of 6 other RN's that mentored me like old Mother hens. Louise was blunt and outspoken, and I was intimidated but learned to love her for it. I'll never forget the time that she and one of the other nurses, Della, came to visit me at home while I was on my maternity leave. She wasted no time in telling me that I had allowed my son's head to become flat in the back by not turning him enough. Needless to say, I corrected that and all was fine! She made quite an impact on a lot of lives in her nursing career.

My thoughts and prayers are with her family and friends.
