“ Oh Bobby Glen, your picture says a million words, makes me wantta hug/squeeze you one more time. We walked a few miles on this earth, made some precious memories. You had struggles and survived with a smile, saying "see thar' I told you I can" You loved life and your family.. You had a great love for God's creation, the beauty and food from His blessed earth.. you proved anyone can eat by getting a stick, drawing a line in the dirt and covering a seed and watch it rain and grow.. You were an amazing man, my brother, I love you dearly I visualize you holding your Babe as you celebrate heaven with all it's Glory..
