“ *Becky Sexton was a very good friend. After her motorcycle accident in which her boyfriend, (David Love, my best friend) was killed, Becky and I became very close. She was hurt pretty bad and I stayed with her at her home in Mt. Ida and we both healed slowly for over a year. We had a lot of good times and shared a lot of tears. When I received the call I was in shock. I met some friends in Hot Springs and we all cried together. I did not get to see her before she died and that bothers me to this day. She would give anybody a hand when they needed it even if it put her out. She was a kind and caring woman with the smarts to back it up. I loved Becky and I miss her very much.*

TN

“ The death of Becky saddened me deeply. I dont know if you(the family) knew that she lived with my mom, who was with hospice for over year. She took very good care of my mom and they loved each other. Becky made my mom's last wishes to stay at home and live out her days coime true. Becky would stay during the week and it allowed me to continue teaching and I would come up on the week-ends . Without Becky I am not sure that I could have made mom's wish. Again, I will never forget what she did for my mother and me. I know they will be together again now. Prayers to you as a family.
