“ I remember when we were young in Flint, Michigan; we had a row of grape vines that we would play in and run through. We played a lot of outdoor games. Later in life when she would go to conventions with Ken, she would tell stories of funny things that would happen to her. She always loved talking to people.

Even though we didn't see the Seeley family as much as I would have liked it would be fun when they came for visits. I'm glad we did get to Arkansas for a visit. So sorry for your loss Scott and Greg and family. Love Kathi

“ Jill was so generous to anyone in the family that needed help. She gave me a \$1000 after the first surgery on my neck! She always sent my family birthday cards with money in them! Even though we had different political views I always knew she would help me if I needed it!
Jill loved to laugh especially at goofy things she did like walking down into a pool when her and Ken were on one of his business trips!
