

Dr. Dale Kincheloe

April 4, 1944 - December 31, 2024

Dale Kincheloe, 80, of Hot Springs, departed this life on December 31, 2024 surrounded by family. He was born on April 4, 1944 to John Allen and Miriam Kincheloe. He was preceded in death by his parents.

Acts 20:35 It is more blessed to give than to receive.

Dale was a faithful servant to many, including his country through service in the Air Force, patients of his medical practice, church, and community through his involvement with the Race Track Chaplaincy and Habitat for Humanity.

Always ready with a story or joke, he had a gift of being able to connect with anyone and make them feel valued and included. Dale cherished each adventure with optimism and a smile, and his enthusiasm was infectious. He was known for the twinkle in his eyes and sound of his voice.

Proverbs 22:6 Train up a child in the way he should go, and when he is old he will not depart from it.

Dale was a devoted husband, father, brother, friend, and mentor to many.

Anyone that knew him knew his greatest love was his family. Dale and the love of his life, Bridget, shared many wonderful years together and taught their children to live each day to the fullest with grace, respect, and love.

He is survived by his wife of almost 54 years, Bridget, daughter Britt, son Jake, siblings John and Margaret and countless cousins, nieces, and nephews.

A celebration of life service will be held Saturday, January 4th at 10:30 at First United Methodist Church in Hot Springs.

In lieu of flowers, the family requests that memorial gifts be made in his name to Arkansas Race Track Chaplaincy or Habitat for Humanity of Garland County.

“ Dale and I were residents together in orthopedic surgery at University of Louisville. I am saddened to learn of his death. We were ‘buddies’. We even talked of going into practice together. Last saw Dale in 2005 when his son and mine graduated from UL Medical School...even though out of sight I thought of him often and some of the adventures and misadventures we shared.

RIP Dale...

“ Dale was a classmate in Medical School, and his Gross Anatomy Cadaver table and partners (3) were adjacent to mine and my partners. From day one, Dale made every day specia and lighter, and he did so throughout those 4 years. I talked with him several times in the intervening years and was looking forward to doing so in person at our 55th Reunion to be held in October of this year (2025). His daughter Britt just notified me of his death having seen our emails to him about the reunion. He will be missed. I am not surprised to read of his accomplishments and influences on others during his life, and I recognize acutely his appreciation of others in his life, and stories of his importance in theirs. A good man. John Jackson, M.D.

“ I had the great pleasure of getting to know Dale and his lovely wife and daughter Britt, through Jake. It was easy see what a close knit family the Kincheloes are. They enjoyed so many special moments, trips,etc together. Dale definetly had a great sense of humor, was kind and made a tremendous effort to make peole feel included and never hesitated to let you know how much is family meant to him. It is extremely difficult to lose a father, brother and husband..but I have no doubt that Dale's learnings, legacy, jokes and his williness to support and care for others, will live on through his family as well as through the countless lives that he touched throughout his amazing life. Prayers to the Kincheloe family. I have fond memories of their visits to Nevada. Dale was an exceptional human being..as are the entire Kincheloe family. He will be missed. Kelley Bell

“ I was in the first Paramedic Class at what was then Garland County Community College..Dr Kincheloe took time to come do a lecture on orthopedic pathophysiology, explaining why the population of Garland County was different.

"Hot Springs is the home of newlyweds and nearly deads"

He made sure we were all prepared because he cared about his patients, and I have never forgotten that lesson. Thank you Dr Kincheloe.

I'm sorry I've never met Dale's family. He and Price were always so great to me while in college. My son loved these two Gus as well. Dale and Price were cousins and came by our house so many days. I appreciated them and thought so highly of Dale and Price. The two of them were akin to the sun , always happy, smiling, and caring and were certainly smile makers for me. Elinor

“ I was fortunate to be both a patient Dr. Kincheloe from nearly the start (my start). And later high school friends with Britt and Jake. Decades later I remember him as a caring, smart, loving, and friendly man. Today, as a parent I see that who we truly are is reflected in important ways by our children. And the people I knew then, and their thoughtfulness and maturity were the kind of people I would want my own children to be surrounded by and peered with. I didn't know half of what Dr. K did to make the world a better place, but my specific up close experience leaves little room for doubt that he was a loving light in the world.

“ Dr. K was one of the kindest people I have ever met. I had not seen him in years, but even as a young teenager, I still remember his kindness and that there was just something different about him. My love to his family. He will be greatly missed.

“ My condolences to his family. I worked with Dr Kincheloe for many years. He was such a good ortho surgeon. When he would be on vacation, he would still call to check on his patients When my husband passed in 2013 he and Bridgett were at his visitation. That meant a lot to me. He will be missed. Prayers for his family.

Bridget, Britt, and Jake my deepest sympathies, prayers, and condolences. Dale was one of my favorite physicians in town! Having been an educator at Hot Springs High School, I can't remember a brother and sister who were both valedictorian's, in all my years! I also took Britt and Jake to Europe, which was a blast. You both played tennis for me! Bridget you and Dale were always there. My memories are are fond and deep for all. Condolences and prayers run deep. He was a wonderful man!

I worked with "doc" as a Habitat volunteer. His bright spirit always lifted the crew, whether in freezing or hot weather. He always had a story about driving his father on calls, a country doctor in Kentucky , as a 13 year old. Dale would do anything for anyone. He is already missed.

*I went to high schools with Dr. Kincheloe when he was just Dale. We did homework together in the balcony of the gym at BCHS in Hardinsburg. He was a good friend and was well loved by all our classmates. I lost touch with him after we graduated, but have thought of him often. The comments tell me that he had made a good life for himself and his loved ones. I am happy for that.
