“ *Having just gone through losing my mother recently I know how difficult this time is for you. Next to our children our mother's are usually the most important people in our life. I know you will be glad that you kept her at home to care for her. That's such a hard job. When she needed you most, you showed her how much you loved her. So prayers to and your family for strength and peace. Remember she's at peace now and in no pain. My thoughts are with you.*
