“ Coach Mac changed my life. He was one of the first Coaches to teach me there was joy and pride in training for competition. In Jr High, playing football for Lake Hamilton was the pinnacle of athletic achievement. I remember it like yesterday, off season workouts that were the most difficult and gratifying hour of the day. He barked out “up” “down” push up commands from a steel jaw and followed it up with a huge grin when he recognized a champion effort. Thank you to Coach Mac and all the teachers and coaches that make a difference in kid's lives.

“ I have known Bob since he was about 5 years old. His family was very close and when Winnie McIntosh (his mom) told everyone, on Sunday, it is church time, you can believe they all lined up for church. Bob was so like his Mom. He was kind, caring and loved his family. As the years pasted and he went from student to Teacher and Coach he seemed to have enough love for his students and football team too. Years of loving school children and sharing compassion for others was what he was about. He will be missed by many. Prayers for the McIntosh family today and for many weeks to come.

*“ Being a freshman and a teammate with Bob at Arkansas Tech, he treated me the same as he did the seniors. I knew very quickly he had the personality to be a great coach and mentor wherever he may go to coach. He was very fortunate to be have the opportunity to stay at the same school for many years. Prayers to the family.*

“ When I was senior at ATU, Bob was this shy freshman that if you spoke to him, he would turn bright red and duck his head. After graduating I did not see him until he was introduced as a new coach at Lake Hamilton Jr. High and to my surprise he was not that shy freshman that I remembered at Tech. Bob made such an impact on the students because he really listened to them, cared for their well being and wanted them to achieve success.

*Charlie, you and your family are in my thoughts and prayers and may God wrap His arms around you during this time of sorrow.*

“ I remember Bob from High School. He smiled all the time. Had a great personality. He scooted my desk and his desk together every class if he could and told the teacher he lost his book. I think he lost all of his books. He was just a fun person to be around. He will be missed.
