ML

“ James, was a son to me. He had a love, and understanding of life, beyond his years. The love and protection of his mother, was always number one on his list. He never judged anyone, he always tried to see the broader picture of a person's. He loved to pull pranks on his sister, to the point, where his mother would end up saying "OK James that's enough".but that's what brother's and sister's do.. He was a very nice looking young man, who had just started turning his life around, with independence of self. That was of most importance. His private life was exactly that. I used to tease him about it, but he would just look @me, with that little twinkle in his eye & laugh.. I will miss him, so much, because he would come visit me everyday, and always the first thing he would say "are you alright"..He was a child of the Universe. With unconditional and universal love, for all who entered his life. With the respect of God's Love, May God continue to bless and watch over his family. And his spirit, will live on, as free as he chose to live his life.."he did it his way."

May God Bless his family and all who knew him,because to have him be a part of your life, was truly a blessing...Ms. Betty Lou Ligon..(254-317-309)
