“ First my sincere condolences to the Johnson family! "Louie" as we all called him was a dear family friend, I've known him my whole life! He helped almost everyone in my family at one time or another. He was so quiet and kind.. He worked a lot on and around the Hamilton House grounds. On his off days he loved to fish using worms out of his own worm bed..❤️ his son and I were childhood friends always hanging together while our parents worked at HH. He will be greatly missed by my whole family! Such a wonderful sole, the world needs more people like Louie! See you on the other side my friend!
