“ *Patsy was a very sweet lady. We worked quite a bit together at Berry Plastics. She was someone you could talk to. I missed her when she retired. I remember several times, when she would ask me to get one of the Maintenance team to close a door, because "A frog may get in". She definitely did not like frogs. Just one of the several sweet memories of this kind lady.*

“ *Patsy is a special lady. She is definately one of kind. She treated me like a daughter. There were so many times I spent the weekend at her house growing up. She taught me how to swim and taught me how to play gin rummy. Took me camping, movies and the car races. I will never forget the way she would run into the house at night afraid of frogs that might be out. Love you Patsy I know I will see you again someday. We will take care of Robert for you.*
