“ *Evan, Ian, Sophie and Family, I am so sorry to hear about my Best Friends' passing. My heart has ached since I received the phone call. Phyllis and I were true "sistas" from downhome. We shared so much with each other. I will always have the very best memories. From simple to silly to serious things, a ride home from Shenandoah School when it was raining. That's how we met! We shared paper towels, lay-aways at K-mart and loved to check out the Blue Light Specials! Drives to Doctor and Dentist appointments for both of us. And shopping afterwards! Working on school bulletin boards together, Phyllis was very creative and had a natural niche for art and decorating. The most serious and amazing share was when she delivered my last baby, Matthew in her brand new 1 week old minivan at the entrance to our subdivision as we were trying to get to the hospital! Every year for the last 25 years, I have sent her a birthday card or greeting (when I didn't have her newest mailing address) on Matt's birthday thanking her and joking, "do you remember what you did on this day?" I miss our messaging and phone calls more than I can express in words. Your Momma and Grandma was an amazing person and all of you were her world!! She loved y'all very much. Hugs and Love to All, Letty Beadling and Family*
