“ *This is so so sad Steve you will be truly missed. He and I were Unit Secretaries on 5 East Rehab Unit at CHI. Coworkers that worked with us said we were like husband and wife the way we argued with each other. 😊🤝😂 when I went on vacation he missed me so much that when I got back he sent me flowers to the floor and the card read you make my blood pressure rise Love Papa Bear. I called the florist to find out who sent them. I called Steve and thanked him for them and he replied "Oh you got flowers?" When he had his stroke he continued working. His speech was slurred and was only able to use one arm as the other was paralyzed. It was difficult for him and he struggled at work but I did what I could to make it easier for him. After I went to work at the Cancer Center, he had been to see Dr Pruitt and actually came over to see me and gave his condolences for my husband Tom's passing. He also came to the funeral. He was a great person. I hope he knew I loved him in my own way and I'll truly miss him even tho it had been years I knew he was still here somewhere. God has you now and you are healed and whole again. You are free!*
