“ I love you more than you will ever know dad and miss you everyday of my life. You were everything to me and my best friend dad and I hurt inside myself so much. I wish that this pain would stop and wish that you could be here to fix everything like you always did. You will always be missed and will always be loved. An really wish that you could have met my wife and you twin grand babies, I named my son after you. I think that you would be proud of me, I love you dad and always will.
